AMAZING WORK by Domain HomeCrafters. They treat their cabinets, employees, contractors, and, most importantly, their clients with respect and care. The finish is excellent, and they explain each step of the way. Their team is extremely impressive. 5/5 experience using them

We were fortunate to work with such amazing individuals while constructing our forever house. We made many modifications to the original floor plan. Russell was happy to accommodate each change we requested. Designing a home is intimidating, but it's not as tricky with these people helping you. We recommend Russell for anything you need with custom home building. Thank you very much!

DHC is an amazing company. My spouse and I had a wonderful time there. We'd been through several firms looking for a house, and we were quite weary with the whole procedure. However, Russell was straightforward with us, honest, and helpful at all times. He made the process simple and interesting. I can't recommend them more highly!

Russell's cabinets are the greatest in the market! Excellent quality, excellent employees, and exceptional everything! Extremely professional, on time all of the time, with excellent communication. They also did my cousin's shelves for his closet, and they look fantastic!

I needed remodeling done for my kitchen and bathroom, so I conducted much research and asking around. I discovered DHC after looking for some time. Someone showed up the next week to give me an estimate. The pricing was reasonable, but the work was terrific. Russell and his team did an outstanding job in creating my vision a reality!!! I was so happy with how things ended up. Recommend DHC to anyone trying to remodel their house.
